## Graphing Quadratics Review Worksheet

Fill in each blank using the word bank.

| vertex | minimum | axis of symmetry | $x$-intercepts |
| :--- | :--- | :--- | :--- |
| parabola | maximum | zeros/roots | $a x^{2}+b x+c$ |

1. Standard form of a quadratic function is $y=$ $\qquad$
2. The shape of a quadratic equation is called a $\qquad$

$\qquad$
$\qquad$
3. When the vertex is the highest point on the graph, we call that a $\qquad$ .
4. When the vertex is the lowest point on the graph, we call that a $\qquad$ .
5. Our solutions are the $\qquad$ .
6. Solutions to quadratic equations are called $\qquad$ .

Determine whether the quadratic functions have two real roots, one real root, or no real roots. If possible, list the zeros of the function.

9. Number of roots: $\qquad$ 10. Number of roots: $\qquad$
Zero(s): $\qquad$

11. Number of roots: $\qquad$
Zero(s): $\qquad$
